

JUNE TRANSIT WATCH

2013

Important dates this month are 10th, 19th and 29th June

Major Planetary Watch

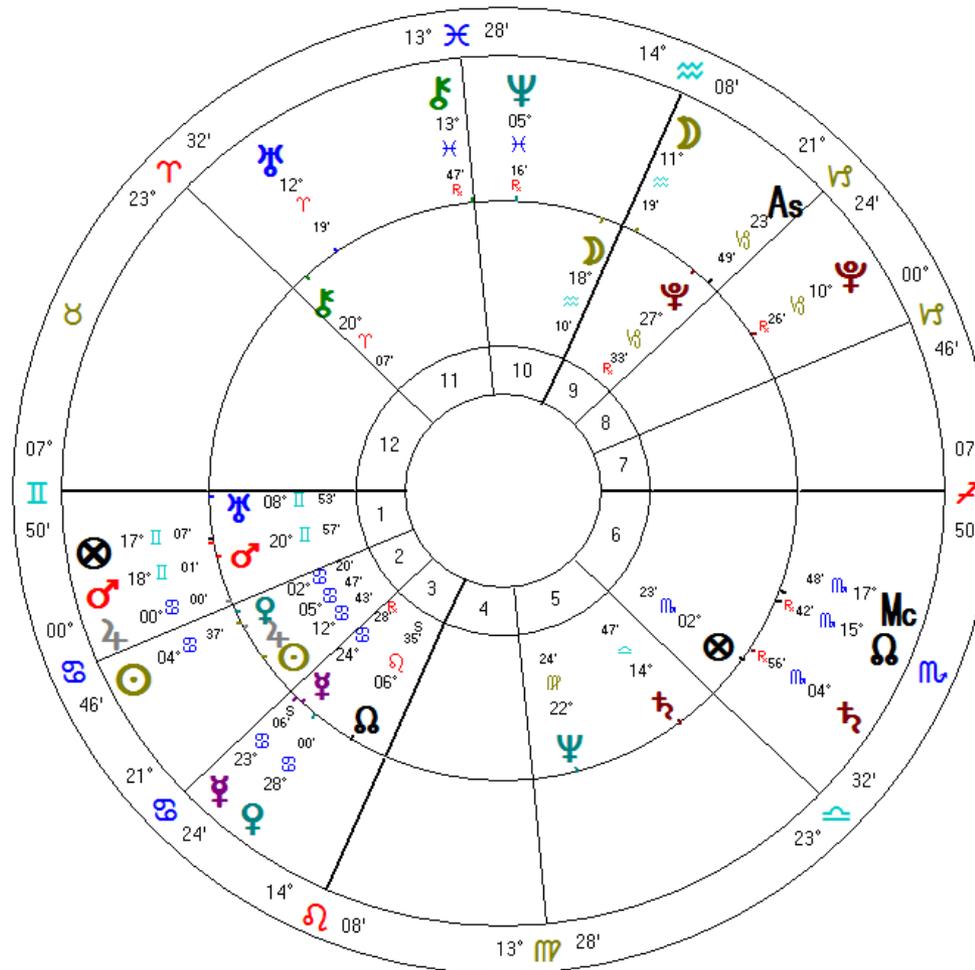

- This month, the most important event after the Cancer Ingress on the 21st June is the Cancer Ingress of Jupiter on the 25th June. Last time Jupiter was at zero degrees Cancer was 12 years ago. This time around, Jupiter is preparing to apply a trine to both Saturn and Neptune—creating a bullish Grand Water Trine next month on the 17th July at 4 degrees of the water signs. Jupiter in Cancer is a secondary factor that raises business activity according to the research of Louise McWhirter because the USA 4th July Chart has Venus, Jupiter, Sun and Mercury in Cancer in the second house of money.

This Jupiter Cancer Ingress chart is quite interesting for the US in terms of planetary returns. Mars, Jupiter, Sun, Mercury and Moon returning to natal positions.
